## STANDARDS

The HSE program by VAPRO equips participants with comprehensive knowledge and skills related to OHSE practices.

The program refers to several international standards, such as:

- Globally Harmonized System (GHS) of Classification and Labelling of Chemicals
- UN Recommendations on the Transport of Dangerous Goods (UNRTDG)
- International Maritime Dangerous Goods (IMDG)
- National Fire Protection Association (NFPA)
- OHSAS 18000 / ISO 45001
- ISO 14001

**VAPRO HSE Certification guarantees that employees are prepared to work in various industries where maintaining health, safety, and environmental standards is essential.**

Below is the structured syllabus:

- Ensure awareness of occupational risks and regulatory standards
- Promote proactive safety behavior
- Enable compliance with international safety and environmental protocols
- Build competencies for hazard identification and incident prevention

### **We assist in aligning international HSE standards**

We offer our services to support technical vocational schools, academies and training institutes across Indonesia, to improve and reach international VAPRO standards for education and training.
